

- TRIM
- BLEED
- WEBBING

Create your artwork on the Artwork layer. The guides are just to show where to place your elements - avoid placing important objects too close to the trim guides. Ensure text elements are converted to outlines - we may not have the font you are using.

TURN OFF GUIDES LAYER OR DELETE COMPLETELY BEFORE SENDING TO US.

DO NOT MOVE THE TEMPLATE - IT MUST REMAIN DEAD CENTRED ON THE PAGE OR YOUR BUNTING WILL NOT PRINT CORRECTLY.
