

PLEASE HIDE OR DELETE THE INSTRUCTIONS
LAYER ONCE YOU HAVE READ - WE DO NOT
REQUIRE THEM ON THE ARTWORK

- TRIM
- BLEED
- WEBBING

INSTRUCTIONS:

Please note that we require
10mm at the top for the
webbing - avoid placing
important design elements in
this area as they may get obscured.

Once you have created your design
please ensure that you turn off the
GUIDES layer or delete completely.

Please turn ALL text elements into
outlines to avoid font issues and avoid
going too close to the trim to avoid text
being cut off .

We have provided a layer called FLOOD
which is ideal for plain backgrounds -
simply change the colour of the rectangle on
that layer to your desired colour.

If you are using an application such as
Photoshop to create your design please
ensure that you output at 300dpi to ensure a
high quality print.
